**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

A couple of years ago, we were customers of large internet and phone providers such as AT&T and Verizon. But we were very disappointed with these large companies. Not only that these large companies overcharged us, but kept on offering fake promotion products which misled us to pay higher rate.

We were very fortunately to find out a small company named "Sonic" which provides us the best services and the lowest rate. We have been customers of Sonic for more than 2 years and never have to worry about interrupted services and higher rates. We were shocked to hear that the wonderful competition opportunity will be restricted - that's not the way the Government should allow!!!

We don't know much about technical term such as broadband or fiber connection. But we know that AT&T DSL does not work well in our area, and the services was constantly down -then AT&T charged us repair fees, which is why we don't want to stay with large companies anymore.

Please allow Sonic to provide services in San Francisco area. My family members are using Sonic too.

Thank you so much.
